

How to get the most out of your **YOUNGEVITY PRODUCT EXPERIENCE**

Youngevity products have been helping people live younger, longer for over 20 years. Here are the simple steps to creating your fantastic product experience:

Step 1: Open your order!

- Really, it's that simple. Open the box and get excited about your first order – you have made a great decision!
- Take out the products and read how much and how often to take them.
- Call the person who introduced you to Youngevity to let them know you got your first order!

Step 2: Start using the products every single day – make it a priority!

- Start using the products daily. Create the habit.
- To solidify the habit and remind yourself; put your products in a place where they will stand out and you'll see them every day.
- If you ordered jewelry, memory keeping products, essential oils, or mineral makeup, plan a home party or a date night to show them off.

Step 3: Get on Autoship!

- You get FREE shipping on Autoship orders over \$99 in the U.S.*
- Getting on autoship insures you will get your products each month and never run out.
- Autoship also will help you meet your personal volume requirement each month to make sure you're qualified to earn in the Compensation Plan.*

Follow these three simple steps and you will be setting yourself up to get the most out of Youngevity products and create your amazing story!

*Autoship policies and shipping differ by country, please see Youngevity's Policies and Procedures and the Compensation Plan Summary for personal volume requirements by rank.
